

Il Castello di Santo Stefano d'Aveto rovinato dai gendarmi *della Gabella* (anno 1803)

di Sandro Sbarbaro

Secondo una leggenda che circolava a Santo Stefano d'Aveto e dintorni il castello di Santo Stefano venne rovinato dall'ultimo Commissario dei Doria che prima di abbandonare il castello nel fatidico anno 1797 smontò e vendette le lastre in rame che ricoprivano il tetto e quant'altro potesse vendere per ricavarne denaro contante. Occorre ricordare che i valligiani spesso confondono date e interpreti sulla scena della storia.

Indi occorre rifarsi a documenti per accertarsi della veridicità di racconti che sono a metà tra leggenda e storia.

Detta leggenda è stata ripresa anche dal Calestini (cfr.: D. Calestini, *Santo Stefano da "stato feudale" della montagna d'Aveto a centro turistico di Liguria*, Genova, 1989).

Lo studioso può essere stato indotto in errore dal ricorrente assioma: feudatari uguale a sfruttatori di poveri valligiani.

Detto assioma è frutto dell'imperante corrente storiografica che dalla fine dell'Ottocento in poi dipingeva i feudatari come scellerati aguzzini sempre pronti ad azioni imperdonabili contro la povera gente.

I documenti invece raccontano che i francesi che portarono in Val d'Aveto come altrove *Libertè Egalitè e Fraternitè*, spazzando via il feudalesimo, non furono con i loro asserviti gli angeli che storici distratti fin ora hanno dipinto.

A questo proposito come è nostro costume riportiamo un interessante ed inedito documento ritrovato nell'Archivio Comunale di Santo Stefano d'Aveto, Sezione carte sparse, Doc. dal 1802 al 1815.

1803 .9. Marzo anno 6°

Da Municipalità del Cantone di S. Stefano al Commissario del Governo Sorogato né Monti Liguri

A risposta ~~della~~ della vostra lettera del giorno 6 ~~Marzo~~ corrente la Municipalità vi dirà, che non senza giusti motivi ha intimato al Commissario della Gabella di questo Capoluogo, ed al Caporale de Giandarmi (1) esistenti a servizio della medesima ~~per la~~ di provvedersi di un locale fuori di questo Castello, quando l'alloggio de medesimi non resti a carico del Governo, ma delli appaltatori della Gabella;

Su quest'oggetto la Municipalità non ignora che i danni, e la distruzione maggiore fattasi in detto Castello, si è effettuata principalmente per mano de Giandarmi a servizio della Gabella comandati dal Sargente (2) Romei in questo Capoluogo sul principio del p.p. 1802, distruzione, che si è sempre continuata di mano in mano dai Picchetti de Giandarmi che si spedivano in detto Capo Luogo dalli Apaltatori della Gabella medesima, e distruzione che pur ora si tenta di continuare dai Giandarmi che abitano detto Locale.

*La Municipalità che aveva praticato più volte delle dolci maniere presso di questi Giandarmi per deviarli dal far ulteriori danni al detto Locale, vedendo che quelle erano inutili, è passata al detto forzoso invito, ben conscia che quanto maggiormente si rovina detto locale, altrettanto si rende più difficile il riatarlo, e si accresce così una maggior spesa a chi dovrà pensare a risarcirlo. Intanto la Municipalità quando tale sia la mente del Governo, e sia a carico del medesimo il provvedere l'alloggio a detto Corpo di Giandarmi che proteggono l'esigenza della Gabella concederà loro il Locale di detto Castello in questa parte sola però che può rendersi necessaria per la loro abitazione, concessione che non si fa per altro in riguardo dei ristori, ristori che si asseriscono fatti al detto locale dalli appaltatori della Gabella, perché tali ristori non sussistono, e sono mere impostazioni di chi le ha esposte al Governo, non potendosi dire ~~ristoro~~ restaurazione di un grande locale l'aver fatta ad una stanza del medesimo una mal abbozzata porta, e le antine a due finestre. Questi sono i milantati ristori che non sono se non che minuzie, e bagatelle a confronto dei danni apportati al detto locale dai Giandarmi **per lucrare, vendendo ferro, quadrelli, e Piastre del tetto, ed abbruciando (3) ogni sorte di legname;** e poichè si parla di distruzione, non si deve omettere il caso seguente; esser cioè gionto (4) ultimamente a notizia della Municipalità che i Giandarmi qui esistenti si sono fatti lecito di staccare otto o dieci circa grandi antine dalle finestre della Torre di questo Castello; e che uno dei medesimi Giandarmi ha già vendute nel Paese alcune mappe di ferro di dette antine; la Municipalità in vista di tale relazione, si fece dovere di invitare il Caporale Queirazza a consegnare le*

sudette antine, dal quale ricevette in risposta in sostanza, che egli non vuole né consegnare, ne far consegnare sudetti capi, i quali si vorrà ritenere (5) per la loro totale consumazione.

Tale la Municipalità che riclama (6) altamente per la dovuta sodisfazione, e non sembra cosa troppo politica il lasciare in un medesimo paese sempre il medesimo corpo di Giandarmi, molto più se si considera che sono sette circa mesi da che non ~~vogliono~~ hanno voluto prestarsi a servizio della Municipalità per li oggetti di Polizia.

Sul particolare ~~poi della consegna~~ in aviso poi che voi recate alla Municipalità ~~delle~~ per far fare la consegna di tutti li atti Civili, e Criminali di questo Uff.º al Cancelliere poiché anche quest'invito presuppone un'istanza del Cancelliere medesimo, per non tacer la verità non si può omettere (7) di dire che la Municipalità per mezzo del suo Protocollista fece sapere al Giudice di Pace la richiesta delle chiavi dell'Archivio fatta dal Cancelliere, e l'obbligo di consegnare le medesime chiavi; la Municipalità per bocca del Giudice di Pace stesso, sà che egli ha offerte le chiavi al Cancelliere, onde questo Cancelliere non aveva motivo di ricorsi, ne di fugire da questo Cantone contro la mente della Municipalità; ne tampoco avea esso Cancelliere motivo di far ricorsi per l'alloggio perché la Municipalità l'aveva manifestate le sue premure anche per questo punto ottenute le istruzioni che la medesima richiedeva al Magistrato supremo vuol credere la Municipalità che il presente rapporto basterà a persuadere il Cittadino Commissario del retto operare della medesima, [per] questo la Municipalità desidera si ponga a vista de Presidenti del Magistrato delle Finanze, e del Magistrato dell'Interno, li medesimi comprendano che i rapporti (8) loro fatti furono in parte esagerazione maligna, ed in parte false imposture, richiamando il più giusto castigo contro l'autore delle medesime e vi si augura

Salute, e rispetto.
